EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In the claims:

Amend claim 8 to depend upon claim 3.

Allowable Subject Matter

1. Claims 2-20 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach nor fairly suggest: a mixing and pouring apparatus, comprising: a base; a locking arm support carried on the base; a locking arm rotatably mounted within the locking arm support; and a drive mechanism operatively coupled to the locking arm, the drive mechanism capable of rotating the locking arm drive mechanism comprises a motor having a drive shaft, the motor connectable to an external motor control; a drive gear operatively coupled to the drive shaft; a free gear operatively, fixedly coupled to the rotatable locking arm; and a belt seated over the drive gear and the free gear, and wherein the belt is movable to drive the free gear in response to motion of the drive gear; a registration mechanism, the registration mechanism comprising: a registration disk operatively, fixedly coupled to the free gear, the

Art Unit: 1743

registration disk having a registration slot therein; an optocoupler having a transmitter and a receiver separated by a gap, wherein the registration disk is positioned to extend into the gap; and control lines operatively electrically connected to the optocoupler and to the motor; and wherein the registration slot is aligned in the gap of the optocoupler when the registration disk is in a home position wherein the locking and is in a substantially vertical position.

The prior art further fails to teach or suggest a locking arm further comprising a plurality of vessel openings and a matching plurality of vacuum ports, each of the vessel openings sized to accommodate a vessel, and each of the locking ports capable of retaining the vessel in the locking arm; a drain trough for receiving waste material from a vessel situated in the locking arm when the locking arm is rotated to pour material from a vessel; and wherein the base includes a plurality of guide pin openings, the apparatus further comprising: a supplemental cradle having a plurality of cradle vessel openings each sized to accommodate a vessel, the supplemental cradle having a plurality of guide pins extending therefore to engage the guide pins with the guide pin openings to position the supplemental cradle on the base.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
